Unlock Your Curriculum’s Potential

Curriculum Assist is an advanced multi-tenant analytics platform that automatically processes your curriculum documents to provide deep, actionable insights into cognitive taxonomies, skills alignment, and strategic planning.

Designed to scale with your institution’s needs, Curriculum Assist offers four powerful tiers of intelligence—perfectly tailored to support your faculty, align with industry demand, and streamline high-stakes accreditation.

Four Tiers of Intelligence

Tier	Name	Focus
1	CORE	Foundational Architecture & Analysis
2	PLUS	Skills Analytics & Career Pathways
3	PRO	Accreditation Readiness & AI Insights
4	MAX	Complete AI Infusion & Transformation

TIER 1 CORE: Foundational Architecture & Analysis

The fastest way to clean up and visualize your entire curriculum architecture.

- **Frictionless AI Ingestion:** Simply upload your PDF syllabi and let our secure AI extraction instantly produce structured, analyzable course data.
- **Deep-Dive Visualizations:** Uncover hidden patterns with curriculum heatmaps, Bloom’s and SOLO taxonomy distributions, and prerequisite network mapping.
- **Branded, Exportable Reports:** Generate presentation-ready reports (PDF, DOCX, XLSX) featuring five professional cover designs, your institution’s custom branding, and a comprehensive table of contents.

TIER 2 PLUS: Skills Analytics & Career Pathways

Link your curriculum directly to student success metrics and industry demand.

- **Advanced Skills Profiling:** Generate program-wide skills heatmaps and radar charts to visualize exactly what your students are learning.
- **Gap & Alignment Analytics:** Compare your program’s skill coverage directly to target industry demands, identifying missing, under-represented, or over-taught skills.

- **Real-World Career Mapping:** Map your curriculum’s skills profile to O*NET occupations, salary ranges, and real-time Bureau of Labor Statistics employment trends.
- **Competitive Intelligence:** Benchmark your program’s skill profile side-by-side against peer institutions.

TIER 3 PRO: Accreditation Readiness & AI Insights

The ‘Easy Button’ for complex, high-stakes reporting.

- **Accreditation Standards Mapper:** Automatically map your curriculum outcomes to major accreditation bodies including AACSB, ABET, CAEP, CCNE, and NAAB, or upload your own custom standards.
- **Instant Gap Analysis:** Instantly generate coverage matrices and summary statistics that classify your standard alignment as Strong, Moderate, or Weak.
- **Intelligent Insights:** Leverage advanced AI models to receive cross-course thematic analysis and strategic recommendations based on your specific program data.

TIER 4 MAX: Complete AI Infusion & Transformation

White-glove pedagogical innovation for your most complex programs.

- **Course-by-Course AI Integration:** Utilize an advanced reasoning model to review every syllabus and receive targeted suggestions for integrating AI tools and methods into your teaching.
- **Ethical AI Evaluation:** Every recommendation is rigorously scored against four major ethical frameworks, including guidelines from UNESCO, the US Dept. of Education, and EDUCAUSE.
- **Institutional Safety Flags:** Recommendations are color-coded (Green for straightforward, Yellow for policy guidance, Red for institutional review) to ensure safe, compliant deployment.

TAMUS Texas A&M System Member Pricing

Curriculum Assist was developed through Texas A&M University, with IP jointly owned by TAMUS and Giri Athrey. All System member institutions receive preferential internal pricing.

15% Discount on all CORE and PLUS-tier services across all delivery models. **20% Discount** on PRO and MAX tiers—recognizing the strategic investment in accreditation readiness and AI-enhanced pedagogy.

- **TAMUS inquiries:** giri.athrey@tamu.edu | Internal billing — no external PO required
